Alleghany Highlands COMMUNITY SERVICES

# PERMANENT SUPPORTIVE HOUSING PROGRAM

## A PATH TO STABILITY AND INDEPENDENCE

The Permanent Supportive Housing (PSH) program utilizes existing partnerships to provide stable housing and basic behavioral and primary healthcare services to individuals with serious mental illness (SMI) following the "Housing First" principles.

Tenants create a housing plan and are encouraged to participate in supportive services to maintain housing.

The program assists program participants with locating safe and affordable units within program guidelines to secure permanent housing while providing a rent subsidy, paired with resources such as counseling, community treatment, and support.

## AVAILABLE SERVICES

Individuals are assessed at intake and annually to determine service needs. They may receive intensive case management services involving linkages and referrals to other service providers, including primary healthcare services, job skills training, education services, assistance with obtaining government benefits, and housing education.

# OUR SERVICES
